

Test Design Specification Identifier	Features to be Tested	Approach Refinements	Test Identification	Feature Pass/Fail Criteria	Test type	Expected result	Status	Fail/Pass status		Comment:	
Successful user registration								Firefox FV	Chrome BV		
SR_1	Testing registration form with valid data in all required fields (address field is empty)			Is the registration successful and is all the information saved in the corresponding cells in the data base	positive	User is registered and all the entered information is saved correctly in the database. A success message appears.	retested	pass	pass	E-mail fails with some characters: ' /	
SR_2	Testing registration form with valid data in all fields			Is the registration successful and is all the information saved in the corresponding cells in the data base	positive	User is registered and all the entered information is saved correctly in the database. A success message appears.	retested	pass	pass		
Unsuccessful registration: Wrong data input											
UR_WDI1	Testing registration form with different confirm password from password			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	retested	pass	pass		
UR_WDI2	Test registration form with an invalid name			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_WDI3	Test registration form with an invalid last name			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_WDI4	Test registration with an invalid telephone number			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_WDI5	Test registration with an invalid email			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_WD6	Test registration with an already existing e-mail			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	retested	pass	pass		
UR_WDI7	Test registration form with an invalid password			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	retested	pass	pass		
UR_WD8	Test registration with no city chosen from the drop down menu			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_WD9	Test city field if you can manually add data			Does the field allows writing in it	negative	Field does not allow user to write data in it, only to choose from the drop down menu	tested	pass	pass		
Unsuccessful registration: Empty fields											
UR_EF1	Test registration form with name field left empty			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_EF2	Test registration form with last name field left empty			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_EF3	Test registration form with telephone number field left empty			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_EF4	Test registration form with e-mail field left empty			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_EF5	Test registration form with password field left empty			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
UR_EF6	Test registration form with confirm password field left empty			Is the registration unsuccessful and no information is saved in the data base	negative	An error message appears and nothing is saved in the database. No user is created	tested	pass	pass		
Navigation bar links											
NB_H	Testing if "Home" link redirects to Homa page			Is the user redirected to the Home page	positive	Redirects to Home page	tested	pass	pass		
NB_AN	Testing if "Apply for Nanny" link redirects to Nanny Application page			Is the user redirected to the Apply for Nanny page	positive	Redirects to Apply for Nanny page	tested	fail (does not exist)	fail (does not exist)		
NB_SN	Testing if "Search for Nannies" link redirects to Search for Nannies page			Is the user redirected to the Search for Nannies page	positive	Redirects to Search for Nannies page	tested	fail (does not exist)	fail (does not exist)		
NB_H	Testing if "Help" link redirects to Help page			Is the user redirected to the Help page	positive	Redirects to Help page	tested	fail (does not exist)	fail (does not exist)		
NB_AU	Testing if "About Us" link redirects to About us page			Is the user redirected to the About Us page	positive	Redirects to About Us page	tested	fail (does not exist)	fail (does not exist)		
NB_L	Testing if "Login" link redirects to User Login page			Is the user redirected to the Login page	positive	Redirects to Login page	tested	pass	pass		
NB_R	Testing if "Registration" link redirects to User Registration page			Is the user redirected to the Registration page	positive	Redirects to Registration page	tested	pass	pass
